

BenchMate Centrifuge Tubes

15mL & 50mL Centrifuge Tubes

Our Centrifuge Tubes are reliable, secure, and convenient - perfect for your sample handling needs!

Features and Benefits

- Leak-proof seal for sample protection
- Easy-grip cap with ridges for single-hand use
- Large blank writable labeling space
- High-contrast graduation markings for easy volume identification
- Fits standard centrifuge rotors
- Graduation markings resist physical or chemical erosion
- Made with US FDA approved virgin polypropylene
- Fits standard regular and high-capacity rotors
- Eco-Friendly packaging
- Pre-sterilized for user convenience

High Quality Manufacturing

BenchMate Centrifuge Tubes are produced in a fully automatic manufacturing space. Manufacturing is done in a human-touch-free clean room facility that is certified to ISO11137 Standards.

Contaminant-Free

Oxford Lab Product Centrifuge Tubes are free of DNase, RNase, Human DNA, Endotoxins, Pyrogens, PCR Inhibitors, Lubricants, and Heavy Metals.
